

Record Group 104 Entry 212, Vol 1 of 1

**Index of Correspondence Received and
Sent from the United States Mint and its
Officers. May 5, 1792 to July 16, 1835.**

[NOTE: NARA title, “Register of Correspondence of the Secretary of the Treasury 1792-1835” is misleading. It should only be used when an official citation is required – RWB.]

Page number 38 is missing from the original document. It does not appear to have been removed.

— Note to Users —

The original journal is approximately 14x20-inches. Each letter description flows across two facing sheets. These leaves have the same page numbers, visible at the upper corners of these images. Users should open both left and right sheets for each page, then follow the text across from left to right. Some might prefer to extract pages, convert them to TIFF or JPG images, and then stitch them together for convenience.
